

SEAWARD ELITE+ KIT

The ProTag Elite+ Kit is a highly advanced and complete portable appliance testing solution that will allow you to streamline the entire test and tag process. The number of powerful features and benefits this kit provides will undoubtedly increase your overall productivity.

This package will allow you to test and tag using the most advanced tester on the market (Primetest Elite+), scan barcodes, download test results and create reports using the new PATGuard 3 Software.

You can also print test tags on the ProTag XL Tag Printer which can print on both Direct Thermal and Thermal Transfer Labels.

Everything included in the Elite+ Kit will make your job easier, as well as being of exceptional quality, - from the tester, software, scanner and printer.
